## Principal Platform Engineer | Team Leadership / Scalable Systems / Public Clouds

Dynamic and multilingual professional with 17+ years of software development experience, demonstrating leadership in guiding pacesetting engineering teams. A focused and collaborative leader leveraging agile processes to create robust and highly scalable systems.

### CAREER HIGHLIGHTS

- Established and led a pacesetting development team at Context Labs BV, optimizing productivity through integrated tools and processes.
- Crafted cost-efficient infrastructure solutions for AWS, GCP, and Azure at Chartboost, setting the gold standard for future development efforts.
- Produced best-in-class software solutions at PressPage by aligning with stakeholders throughout the software development lifecycle.
- Promoted to Head of DevOps at ticketscript, recognized for expertise in modern technology and methodologies.

### SKILLS & EXPERTISE

Public Clouds | Team Building | Scalability & Reliability | Technical Roadmaps | Leadership  
Agile Practices | Cloud Architectures | Coaching & Mentoring | Microservices | Requirements Gathering  
Complex Problem-Solving | Process Improvement | Hiring & Onboarding | Strategic Planning

### PROFESSIONAL EXPERIENCE

#### Context Labs BV (2022 – Present)

##### **Principal DevOps Engineer**

- Built and led a pacesetting team, refining onboarding processes for increased staff retention.
- Guided the smooth transition to managed k8s clusters (EKS, AKS), reducing work hours significantly.
- Noted for essential contributions to the selection and integration of CVE and License testing tools, enhancing coordination across diverse teams.

## MEDrecord (2023)

### **Lead DevOps Consultant**

- Led the migration from AWS to Azure, mentoring the team with best cloud-native practices.
- Designed and implemented an Azure landing zone on Terraform, enabling fast and easy environment creation.
- Introduced Helm charts and automated release processes (CI/CD) with Azure pipelines for streamlined development.

## Chartboost (2018 – 2022)

### **Senior/Lead DevOps Engineer**

- Built unique, cost-efficient infrastructure solutions adopted as the gold standard across AWS, GCP, and Azure.
- Led the transition to Kubernetes/Helm, supported high-level technology and strategy decisions, and mentored a high-performing team.
- Automated processes via CI/CD tools, reducing related expenditures, and managed diverse data store solutions.

## PressPage (2016 – 2018)

### **Senior Software Engineer (Senior DevOps/Architect)**

- Designed and implemented cloud solutions on AWS, ranking among the top software engineers.
- Developed best-in-class software solutions, studied information needs, and promoted continuous improvement.

## ticketscript (2015 – 2016)

### **Head of DevOps (2015 – 2016)/Senior PHP Developer (2015)**

- Promoted to Head of DevOps, played a key role in migrating infrastructure to AWS ahead of schedule.
- Supervised projects, provided comprehensive aid in design, architecture, and operations, earning a reputation for technical know-how.

## Emesa BV (2013 – 2015)

### **Senior PHP Developer**

Thrived on high-load projects, implemented a Queue solution based on RabbitMq recognized in the industry.

## LoveYouPlanet (2009 – 2010)

### **CTO**

Spearheaded the company's technology vision and roadmap, leveraging contemporary development and project management methodologies.

## ADDITIONAL EXPERIENCE

Daxx BV, Senior PHP Developer, 2011 – 2012  
Hypernaut, Senior PHP Developer, 2010 – 2011  
vis-a-vis, Team Leader, 2008 – 2009  
Turtess Travel, Middle/Senior PHP Developer, 2006 – 2008

## TECHNOLOGY & TECHNICAL SKILLS

**Languages:** Python, Golang, Bash, PHP, Ruby, JavaScript

**Databases:** MySQL, PostgreSQL, MariaDB, MS SQL, ElasticSearch, DynamoDB, MongoDB, Aerospike, Memcached, Redis, Kafka

**Development Soft:** Kubernetes, Helm, Terraform, Terragrunt

**CI/CD tools:** Jenkins, Travis, Spinnaker, Bamboo(Atlassian), Atlantis

**Monitoring and Alerting tools:** DataDog, ELK, PagerDuty, Pingdom, Prometheus/Grafana, NewRelic

**Public Clouds:** AWS, GCP, Azure

## EDUCATION

Kyiv Polytechnic Institute  
Master of Science in Information Technology, Automation of Dynamic Objects and Systems

Additional Education: The Linux Foundation – CKA: Certified Kubernetes Administrator & CKAD: Certified Kubernetes Application Developer | Expired AWS Certifications (See LinkedIn)

## LANGUAGES

English, Ukrainian, Russian, Dutch
